Need to know for retailers

- Polar Go is a compact audio interface with built-in stereo microphones and a rechargeable battery. Designed for content creators who want stunning sound quality with minimal setup.
- Blackstar's exclusive ProCapture™ stereo mic system delivers clear, detailed audio that far surpasses standard phone mics. From ASMR to a jet engine, the built-in mics capture a wide range of sounds with impressive clarity and depth.
- Featuring XLR / instrument input, phantom power, and dual USB-C ports (for data & power), Polar Go works seamlessly with iOS, Android, macOS and Windows.
- The free Polar Go App (iOS/ Android) offers video capture, audio presets, and a Magic Wand tool that enhances recordings with one gesture. It's designed for creators who want simple tools with useful results.
- Polar Go supports singer-songwriters, podcasters, Youtubers, podcasts, or livestreamers by making their sound clearer, richer and more professional. Just plug in your phone and start recording, no studio or prior experience required.

Description

Introducing Polar Go – The Audio Interface you can take anywhere
Polar Go is the all-in-one portable audio solution for creators who care about sound but don't won't the hassle of complicated set-ups. With a built-in rechargeable battery offering up to 6 hours of use, you can capture professional audio anytime, anywhere.
Whether you're a singer-songwriter, podcaster, YouTuber or livestreamer, Polar Go helps you stand out by making you sound clearer, richer and more professional. No studio, no experience needed, just plug in your phone and create, nothing could be easier.
At the heart of Polar Go is Blackstar's exclusive ProCapture™ stereo microphone technology, delivering stunning detail and depth that far surpasses your phone's mic. No external mics or extra setup required. From ASMR to a jet engine, Polar Go's built-in ProCapture™ mics capture it all, with stunning clarity and depth.
With a combo XLR/instrument input, +48V phantom power, and dual USB-C ports (for charging and data), Polar Go is a complete mobile audio solution that works seamlessly with iOS, Android, macOS and Windows — making professional audio effortless, wherever you are.
